

## What we Do

We support NHS organisations in finding the ideal candidate for the role, resourcing non-clinical interims, permanent staff and project teams to meet your exact requirements.

We specialise in resourcing senior specialists across Information, Performance, 18 Weeks RTT & Data Management, Software and Application Development, Business Intelligence, and Project Management. Whilst these are our specialty areas, we have experience supporting NHS organisations with vacancies across the full spectrum of non-clinical positions.

## Our Process

1. Assign a dedicated consultant who understand your exact requirements
2. Find the best candidate available using industry leading resources
3. Undertake rigorous pre-qualification and technical assessment of candidates
4. Provide you with a shortlist of suitable candidates and arrange interviews
5. Facilitate contract commencement

## What makes us different –

- **NHS Service Delivery Experience** - Our organisation delivers services directly to the NHS and our staff have over 30 years NHS operational experience, giving us the practical knowledge to understand exactly what skills and experience are required for the role.
- **iTAP** – Our unique Technical Assessment Platform ensures candidates have the necessary technical skillsets for the position.
- **Fully Managed Service** - We are able to provide you with staff resources or project teams as a fully managed service, minimising cost, reducing your workload and mitigating risk.
- **Accessible via Frameworks** - Our services can be procured through numerous frameworks, including G-Cloud 9, Digital Out comes and Specialists 2, Elis 2.0, and Contingent Labour 1.

**5,000**  
candidates placed

*“Source Recruit have proved to be the best agency we’ve ever worked with and we wouldn’t hesitate to recommend them or engage with them again” – Data Quality & RTT Team Lead - NHS Foundation Trust.*
